

## 6" X 90 Degree Smooth Radius Elbow

### Part # 1200937

Made from the same materials as Vernatube, Centek smooth radius elbows offer the best in heat resistance and strength. Precise outer dimensions and smooth inner surface assure easy connections with minimal flow restriction. Smooth outer surface offers an attractive alternative to mitered elbows.

#### Fittings Family

### MATERIALS AND CONSTRUCTION

|                     |  |
|---------------------|--|
| Process             | Filament Winding CNC, Resin Transfer Molding       |
| Resin               | Class 1 Fire Retardant Epoxy Vinyl Ester Thermoset |
| Glass               | Corrosion-Resistant E Glass                        |
| Glass / Resin Ratio | 60%  |

### ATTRIBUTES

|                      |   |
|----------------------|---|
| A - OD (IN / MM)     | 6.00 / 152  |
| C - Length (IN / MM) | 14.00 / 356   |
| Color                | Standard Unpainted, White, Black; Gel-Coat; Yacht Quality; Yacht Quality Plus |
| Approvals            | Lloyd's Register Type Approval  |
| Flame Retardancy     | UL94V-0   |
